

EACH ROUND

If you are holding an egg, you can either lay an egg or bite a human. You **cannot** do both.

If you are not holding an egg, you can only try to bite a human.

1

Lay an Egg

Sit down in a breeding ground.

At the end of the round the egg stays in the breeding ground and you return to your safety zone.

2

Bite a Human

Grab a human's flag.

If you successfully grab a flag then that human returns to his safety zone for the rest of this round.

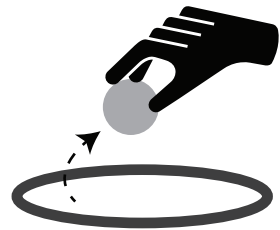

EACH ROUND

You can remove an egg **only** if you have not been bitten by a mosquito in this round.

1

Remove an Egg

Take an egg from a breeding ground. Then place the egg into the basket.

If you are bitten by a mosquito (outside your safety zone) then you must return to your safety zone for the rest of the round.

If you are bitten after you have removed the egg but before the egg is in the basket then you can put the egg into the basket before returning to the safety zone for the rest of the round.
